## Connecting to VPN from windows 8

Connecting to VPN (initial setup):

1. Navigate to the Desktop part of Windows 8. (You can do this by hitting the Winodws key on your keyboard or clicking the Desktop tile.

2. Open the Charms bar by swiping in from the right had edge of the screen (for touch) or moving your mouse to the right hand corners of the screen.

- 3. Click Settings.
- 4. Click Control Panel.

Settings
Desktop
Control Panel
Personalisation
PC info
Help

- 5. Then click on "View network status and tasks" (under Network and Internet)
- 6. Then click "Set up a new connection or network"

7. On the next window, click on "Connect to a work place", and then click next

8. Click on "Use my Internet connection (VPN)"

9. Internet address: vpn.mountsaintvincent.edu and destination name: CMSV and click next:

ype the Internet a	Idress to connect to	
Your network administra	or can give you this address.	
Internet address:	vpn.mountsaintvincent.edu	
Destination name:	CMSV	
Use a <u>s</u> mart card () <u>Allow</u> other peop This option allow <u>D</u> on't connect no	le to use this connection s anyone with access to this computer to use this con w; just set it up so I can connect later	nection.

10. The username and password are the same as your e-mail account. Enter the information and click next.

11. You should now be connected.

Note: After the initial connection you will be able to connect by clicking on the following symbol (located in the lower, right hand side of your desktop):

And then click on CMSV and connect:
